Dear Mr. Weisberg:

I read the news about your defeat in the "9 Idiots court" to make the conspirator F.B.I. open the file on Kennedy conspiracy.

Why don't you help to get the Privacy bill by Goldwater-Koch enacted into law. Then the F.B.I. and all agencies of Government would be open for inspection, as in the House Judiciary Committee there is too much secrecy with the Government.

What the Stupid american people ought to do is vote or throw all the Bums out of office and vote in complete new bunch of officeholders Fed. & State both

So you realize that all this Watergate farce and everything coming out now is the C.I.A. and one would do discredit our form of Government and cause the down throw of it. a Man in Chicago has proof of CIA plot and gave it to Sen. Symington and was on the news at first of Watergate committee

Sincerely
C.A. Herring

P.S. Will appreciate hearing from you. Right after Kennedy's killing, I got complete information on it from several so called Right wing movements. So I found out the conspiracy in just a month or so.

the Lile Stewart Pub. Co in N.Y. put out a book on Abe. Lincoln by McLaughlan (?) that proved that the Catholic Church masterminded the thing.

Do you have anything on McKinley in 1901. I believe it was the Bankers then Wm. Hurst Sr. bragged that Presidents could be bumped off in his papers. (under)
